### Day 4

#### Empakai Crater

Very few people have experienced this extraordinary excursion, which is on the itinerary of today. Passing the slopes of the Olmoti Crater you will be fascinated by the scenery of Embulbul Depression, Loolmalassin- and Empakai Crater. On a really difficult track we will "ride" you to the rim of Empakai Crater (2700m). The Caldera is edged by 600m high, steep, jungle walls and its floor is covered with a green glimmering lake - the seasonal home of millions of flamingos. With some luck, you may see them. This excursion offers the possibility, that you will meet Maasai in their untouched environment, not invaded by tourists. An armed ranger will accompany client which open the chance to descend to the crater floor (tough path!).

Dinner and Overnight: Ngorongoro Serena Safari Lodge

***Important: Unforeseeable events like heavy rain leave the track to Empakai impassable. In these cases client will enjoy a day of rest or (if client like) make an excursion to Olmoti Crater.***

### Day 5

#### Ngorongoro Crater - Serengeti National Park

Passing Ngorongoro crater rim you descend through a really impressive landscape down to Oldupai Gorge. There you will find the most complete and eldest proofs of human development. Stop for the

Excursion to the Fig tree (if client like too): Drive on dusty, nearly never used trails to the north - an excursion into a lost wilderness. Client will find a fig tree in untouched Maasai land, north of Oldupai and close to the Gol Mountains. Even if client are not so interested in trees, this tree might tell client about the last 1000 years.

We found this tree about 24 years ago and used to talk for hours with him. We are proud to show our lonely friend and client will not forget this "cathedral of a tree"!

***Important: The track to the Fig tree is extremely dusty and impassable if it is raining. Continue to the heart of Serengeti***

Dinner and Overnight: Serengeti Serena Safari Lodge / Serena Mbuji Mawe Luxury Tented Lodge

### **Days 6 – 7 Serengeti National Park**

You will have plenty of time to explore the Serengeti, one of the most beautiful National Parks in the world with an incredible live stock. Your game drives will be adapted to the animals' position. ### **Day 8 Serengeti National Park – Lobo Area (Serengeti North)**

Today clients will drive to Lobo area, the "rolling land" in the northern Serengeti. Landscape there is totally different to all what client have seen yet. Game drives with picnic lunch to the lobo springs, to Bologonja, Klein's Camp and along the Gagoti (maybe client will find leopards there).

Dinner and overnight: Lobo Wildlife Lodge (Basic Lodge)

### **Day 9 Serengeti Lobo - Lake Natron**

A stony track leads client to Loliondo and Sonjo. On black soil and through a wild and cliffy landscape clients will reach the Seven Corners offering you an amazing view over Lake Natron surrounded by Shompole (Kenya) in the North, opposite Gelai and next to Oldonyo Lengai - the Maasai's holy mountain. A tough track leads to tented Lodge at River Ngarasero.

Dinner and overnight: Lake Natron Bush Camp (Basic lodge)

***Clients can carefully walk to a gorge. After 30 minutes clients will reach a place which you would never have expected in this dry and desert-like area: waterfalls, natural Jacuzzi and palms! Clients will feel like in paradise!***

Examples of an additional day which can be integrated here in this itinerary:

At 2:00 a.m. clients will start your climb to the peak of Oldonyo Lengai - still an active volcano! Please strictly comply with instructions of your guide! The chance of seeing eruptions or effluents of cold lava (black and about 500°C) is really big.

Clients will have a fantastic and unique view from the peak! Clients can see the Kitumbeine, Kerimasi and Empakai Crater and by luck Mt. Meru too. Like a Fata Morgana Lake Natron lies beneath clients feet.
