Dinner and overnight at Kisima Ngeda Luxury Tented Camp FB

This camp offers all the romance and the comforts of a traditional luxury tented camp. The tents are set in a stunning position on the shore of a soda lake, at the base of the Rift Valley escarpment. Views across the lake, especially those from the huge granite boulder behind the camp at sunset, are superb. Though this area is isolated and little visited it is situated conveniently close to the route between some of Northern Tanzania's most popular National Parks.

It offers an exclusive destination plus awesome scenery and a chance to visit the Hadzabee, one of the last click-speaking hunter gatherer tribes.

A beautiful tented camp on the shore of Lake Eyasi offering luxurious accommodation under canvas, the

attractions of this fascinating area include meeting with the Hadzabee hunter gather tribe, swimming, walking, and bird watching.

Day 5

Lake Eyasi - Ngorongoro Crater

Drive to Ngorongoro Crater. After lunch clients will experience the great variety and density of animals in the second largest Caldera on earth. The most beautiful game-drives clients may experience in the late afternoon: Most of the people have left the crater-floor, the light gets soft and the activity of the wild animals increases. Please have a sufficient quantity of film-rolls with you! You will take more pictures of this fantastic African landscape, flora and fauna than you have ever expected.

Dinner and overnight: Ngorongoro Serena Safari Lodge

Day 6

Empakai Crater

Very few people have experienced this extraordinary excursion, which is on the itinerary of today. Passing the slopes of the Olmoti Crater you will be fascinated by the scenery of Embulbul Depression, Loolmalassin- and Empakai Crater. On a really difficult track we will "ride" you to the rim of Empakai Crater (2700m). The Caldera is edged by 600m high, steep, jungle walls and its floor is covered with a green glimmering lake - the seasonal home of millions of flamingos. With some luck, clients may see them.

This excursion offers the possibility, that clients will meet Maasai in their untouched environment, not invaded by tourists. An armed ranger will accompany you which opens the chance to descend to the crater floor (tough path!).

Dinner and overnight: Ngorongoro Serena Safari Lodge

Important: Unforeseeable events like heavy rain leave the track to Empakai impassable. In these cases clients will enjoy a day of rest or (if clients like to) make an excursion to Olmoti Crater. FB

Day 7

Ngorongoro Crater – Serengeti National Park

Passing Ngorongoro crater rim clients descend through a really impressive landscape down to Oldupai Gorge. There clients will find the most complete and eldest proofs of human development. Stop for the information about the cradle of mankind! Continue to the heart of Serengeti;

Client journey is adapted to client travel period: in this season normally approx. 2.5 million animals are on their "Great Migration" into southern Serengeti! According to the rainfalls in these months the herds move southwards. You will have the chance to participate in this worldwide unique spectacle! As our safaris have no limit of mileage and time, you will get to know the Serengeti in total – clients will therefore also visit Ngong Hill and Moru Kopjes - known as "Islands in the Sea of Grass". Clients take their time to have a look, rest and enjoy!

**Days 12- 13
Serengeti National Park - Nasera Rock**

Giant dust clouds show you the way through the endless plains of the Serengeti. To your left the eldest and deeply eroded Gol Mountains and in front the raise of the volcanoes Empakai, Olmoti, Loolmalassin, Ngorongoro, Oldeani, Lemagrut and Sadiman, which form a huge crater highland

Excursion to the Fig tree (if client wish to) Drive on dusty, nearly never used trails to the north - an excursion into a lost wilderness, client will find a fig tree in untouched Maasai land, north of Oldupai and close to the Gol Mountains.

Even if client are not so interested in trees, this tree might tell you about the last 1000 years. We found this tree about 14 years ago and used to talk for hours with him. We are proud to show our lonely friend and you will not forget this "cathedral of a tree"!

Dinner and overnight: Nasera Special Campsite FB

Important:

The track to the Fig tree is extremely dusty and impassable if it is raining.

We will build up our camp at Gol Mountains. With 2 Maasai guides client will start an hour walk through Olkarien Gorge.

Maybe client will also meet the Great Migration here (This all depends on the rains)

With rain fall this excursion could become a real adventure.
